# PageProof outperforms in the G2 Summer 2020 review

We are excited to share that we have been named as a High Performer in the G2 Summer 2020 online proofing category report. Thanks to reviews by real, verified users, we averaged 4.8 (out of 5) stars.

PageProof was also awarded nine out of the potential fourteen badges available in the online proofing category. Reflecting that PageProof stands out above the rest. Best of all, we topped category averages by a mile!

A big thank you to our users who have provided reviews – it is fantastic to have so many happy customers behind us.

Let's take a look at why we have scored so highly.

A powerful, yet simple tool

Our online proofing expertise has been accumulated over years in software, agencies, and in-house departments. We strive to evolve the proofing category by continually seeking solutions that will enhance the customer experience, whilst ensuring it is simple to use. Software buyers can compare products in the G2 Online Proofing category according to their Usability scores to quickly identify the most usable products based on the experiences of their peers. PageProof has been awarded 3 of the potential 4 badges in this category.

Voted: Best meets requirements

We are continually striving to find a better way by identifying solutions before you even know you need them. Therefore, we are thrilled that PageProof has been voted as the software that best meets users' requirements. However, even **our score of 97%** (vs category average of 89%) doesn't mean that development stops here.

Voted: Easiest to use

We love that we have been voted as the Easiest to Use solution with a **score of 97%** (vs category average of 89%). PageProof endeavors to keep things simple whilst providing powerful solutions to enhance the proofing process. We believe that an online proofing tool should allow you to deliver your best work.

Voted: Easiest admin

We believe that administration should be the least of your concerns. Therefore, we are thrilled that PageProof has been awarded the solution with which you enjoy ease of admin. **At 95%** vs the category average of 88%, there is no doubt that we are making admin simple.

We help you deliver your best results

PageProof aims to do more than gathering comments and approvals. By creating a powerful circle of feedback, we help you deliver your best results. Software buyers can compare products in the G2 Online Proofing category according to their Results scores. This score is measured by the ability to quickly identify the products that produce the best results based on the experiences of their peers. PageProof has been awarded 2 of the potential 3 badges in this category.
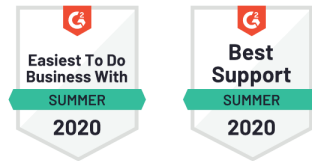

Voted: Users most likely to recommend

It is an honor to be named the online proofing platform that Users most Likely to Recommend. This badge is a reflection of being awarded the highest likelihood to recommend **score of 97%** versus the category average of 87%.

Voted: Best estimated ROI

We are very proud to have been voted as the Best Estimated ROI (return on investment). The score is calculated through a combination of estimated time to ROI and time to go live. The time to recover your investment is estimated to be **4.33 months** with PageProof, whereas the category average is over a year. The time to go live **is 80% quicker** than the average of the online proofing category. Showcasing the simplicity of PageProof.

We strive to delight customers

PageProof believes in putting customer relationships at the forefront – every step of the way. From initial contact to in-app communication – we aim to delight. Software buyers can compare products in the G2 Online Proofing category according to their Relationship scores to quickly identify the products that provide the best relationship with software vendors based on the experiences of their peers. PageProof has been awarded 2 of the potential 3 badges in this category.

Voted: Easiest to do business with

We are super proud of our ease of doing business with score. The **98%** reflects that we make it all about you.

Voted: Best support

We pride ourselves on our customer support. Therefore, it is an honor to be voted as the product with the Highest Quality of Support with a score of **99%.** Meaning we are achieving our goal of placing customers at the forefront.

Up and running fast.

We make getting started simple

We strive to make things simple. This starts with the implementation of the platform. The G2 Implementation score allows potential buyers to compare products in the Online Proofing category to quickly identify the most easily implemented products based on the experiences of their peers. PageProof has been awarded 2 of the potential 4 badges in this category.

Voted: Fastest implementation

Our customers enjoy the fastest implementation with our fantastic in-house customer support team behind them every step of the way. We are proud to be voted as the platform with the fastest implementation time. Customers have reported that it takes an average of a **mere 10 days** to implement PageProof versus the category average of nearly 2 months.

Voted: Easiest setup

We love that PageProof has been voted as the easiest solution to set up, as it reflects exactly what we intended – a simple solution that aims to delight. This is backed by a **score of 96%** from users, which is 10% above the category average.

We are thrilled to have been given such positive reviews from our users. Best of all is that this means that we are achieving our strategy of creating a simple, smarter review and approval platform that delights its users.
